## EXPERIENCE

### Full Stack Developer

#### Hoorbaft

📅 05/2022 - 05/2024 📍 Tehran, Tehran Province, Iran

- Developed a storage and production management application using Dart and Flutter for Android devices to control supply, compare it to the orders, and alert if supplies were low.
- Developed a cashier software personalized for company needs to analyze sales and send daily feedback to the manager about sales and store inventory.

### Mobile Application Developer

#### TSS

📅 06/2021 - 10/2021 📍 Canada

- Developed a mobile application using Dart and Flutter for a high school to manage clubs and provide updates to users.
- Implemented multi-layered access control, allowing the admin to oversee club presidents' management of individual clubs.
- Enabled streamlined communication and real-time information updates for school clubs through the app's user-friendly interface.
- Collaborated with stakeholders to ensure the app met the school's specific needs for organization and administration.

### Project Team Lead

#### Sama5 school

📅 10/2018 - 02/2020 📍 Tehran, Tehran Province, Iran

- Collaborated on a water-controlling smart system that controls the quality of water using image processing.
- Utilized image processing to detect objects or color changes in water.
- Employed sensors for chemical checks to ensure water quality.
- Enabled users to monitor and control water usage online from anywhere in the world through an application.
- Developed the Mobile application using B4A

## EDUCATION

### Bachelor of Science in Computer Engineering

#### Kennesaw State University

📅 05/2024 - 05/2028 📍 Kennesaw, Georgia, USA

- Honors Student

GPA

4.0 / 4.0

## OTHER WORK EXPERIENCES

### Cashier at Walmart

📅 04/2024 - Present 📍 Marietta, Georgia, USA

- Provide outstanding customer service to all customers, ensuring a great shopping experience
- Manage multiple responsibilities simultaneously
- Ensure a clean, organized, and inviting front area by regularly tidying merchandise displays, and handling inventory

### Produce clerk at Publix

📅 07/2023 - 04/2024 📍 Roswell, Georgia, USA

- Prioritized tasks to ensure efficient stocking and presentation of produce, meeting customer needs in a timely manner.
- Assisted customers with inquiries, offered product recommendations, and ensured a positive shopping experience.
- Conducted regular inspections of produce items to ensure freshness and quality, implementing proper storage practices to minimize waste.

## SUMMARY

An ambitious freshman at Kennesaw State University majoring in computer engineering, with experience as the SSV project leader and developer of the Hoorbaft cashier and storage management software, along with several smaller projects. Continuously developing skills by integrating technology into everyday life, starting with the creation of a smart lamp. Proficient in Arduino, B4A, C++, Python, Dart and Flutter, PHP, MySQL, HTML, CSS, Django, JavaScript, and Java. Eager to gain an opportunity with a company to learn and further enhance technical abilities.

## AWARDS & CERTIFICATES

Best engineering award in FIRA Robo WorldCup 2019

Harvard CS50

Network+

Certificate of participation in 4th National Scholastic Festival of ibn Sina

Programming Problem Solving

## SKILLS

Dart Flutter Java MySQL

Python C++ Arduino B4A

Critical thinking Team Leadership

Creative Problem solving

## LANGUAGES

English Proficient

Persian Native
